CSP100TCL C06-005

10/100 Mbps Network PC Card

The PC Card automatically recognizes the speed of the network and can switch back to 10 Mbps when used for a 10 Base-T network. The SP100TCL is suitable for all notebooks which support 32 bits cardbus. The PC-Card only uses 3,3 V in comparison to a regular PC Card which uses 5 V.

10/100 Mbps LAN | Windows Compatible | REALTEK chipset

Highlights

- Connect your notebook to a 10/100 Mbps network
- Suitable for all notebooks that support 32 bits card bus
